MH6 headset

The MH6 headset are designed to offer an amazing sound quality and provide a full immersive gameplay thanks to its HiFi drivers and its 7.1 DSP surround sound. Thanks to its closed-up design with passive noise-cancellation the MH6 give you the best sound experience you could imagine, allowing you to focus on the action and enter the game.

Download the MH6 control software from our website (www.marsgaming.eu) to customize your experience and enjoy the 7.1 DSP surround sound.

How to connect the MH6 to your devices

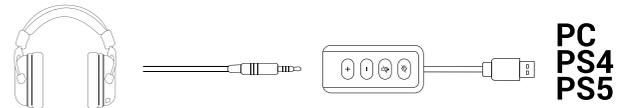

The MH6 are compatible with multiple platforms thanks to its different connectors. You can connect your headset in three different ways:

- 1. 1. To connect your headset by jack:** connect the 3.5mm Jack to your device (PS4, PS5, XBOX ONE, XBOX SERIES X-S pad / Nintendo Switch / Smartphone / Tablet...)

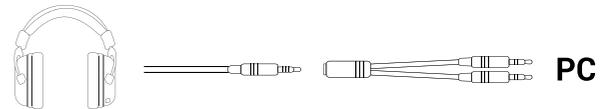

**Mobile
PS4 PS5
XBOX ONE
XBOX SERIES XS
SWITCH**

- 2. 2. To connect your headset by USB:** connect the 3.5mm Jack to the control box and connect it to the USB port of your device (PC / PS4 / PS5...)

- 3. 3. To connect your headset to your computer using Jack connector:** connect the 3.5mm Jack to the 1-2 Jack adapter and connect the Audio & Microphone Jacks to your device.

7.1 DSP USB card

The 7.1 gaming surround sound system of the MH6 provides you the best audio for the headset and offers you a fully immersive experience. Download our control software to enjoy the 7.1 sound in our website: <http://www.marsgaming.eu/es/>
To obtain an amazing audio quality and take advantage of the maximum potential for your headset, **remember to connect your MH6 with the 7.1 DSP USB Sound Card.** Apart from a comfortable access to the headset features (set the volume, microphone on/off, mute on/off) you will obtain the best sound quality to enjoy your games to the fullest.
