

# MMV

## GAMING MOUSE

The MMV is a 10.000 DPI PRO-gaming mouse with a special Ultra-Light design that provides full speed and accuracy to all your moves. It features an optimized software that allows you to program all the 6 buttons and control the LED system.

### NOTES

- *Download the MMV software from our website to edit its key features and control the lighting as you prefer.*
- *To apply changes on the software, remember that the program must be running at all times.*
